Subject:	Stack Trace for unhandled exception - value <channel> was not found		

Description:

This is the stack trace:
Exception Type:
System.ArgumentException

Exception Message:
The requested value '#stammtisch' was not found.

Exception StackTrace:
at System.Runtime.Remoting.Proxies.RealProxy.PrivateInvoke (System.Runtime.Remoting.Proxies.RealProxy rp, IMessage msg, System.Exception& exc, System.Object[]& out_args) [0x00000]

What I did:
Twitter got an error as usual, which means no new message would be received. I wanted to close Twitter and restart it - closing with middle mouse button

Bug one: sometimes Smuxi is not closing the Twitter tabs, but those of the first IRC-network open in tab-list

Okay I rejoined first the IRC-Network, then the Twitter-Network. Shortly afterwards I wanted to write a message in #Stammtisch (already joined) and got a crash

History
