Subject:	Closing a channel tab shows ErrorNotOnChannel		

Description:

If you leave a channel using the tab context menu -> close seems to try to leave the channel two times resulting in this error on the server tab:

<pre>
05:39 [442 (ErrorNotOnChannel) #smuxi] You're not on that channel
</pre>

Fixed leaving an IRC channel two times if the tab close button was used, as the base implementation of Close() handles this already. (closes: #261)
