Smuxi - Feature # 270: Find Group Chat should show colored IRC topics

Status:	Closed	**Priority:**	Low
Author:	Mirco Bauer	**Category:**	Frontend GNOME
Created:	01/04/2010	**Assigned to:**	David Paleino
Updated:	01/07/2010	**Due date:**	01/07/2010
Complexity:	Medium		
Subject:	Find Group Chat should show colored IRC topics		
Description:	If you search for IRC channels, often (depending on the IRC network) the topic contain color and other formatting information. This information is available in an objec-tree (MessageModel) but is not used yet (converted to GTK+) in FindGroupChatDialog.OnFindButtonClicked().

- % Done changed from 0 to 90

The feature has been implemented, I'm only getting a tons of:

(smuxi-frontend-gnome:10651): GLib-GObject-WARNING **: unable to set property `text' of type `gchararray' from value of type `GtkSharpValue'

in the console.

I suppose this is due to the fact that I'm using a Gtk.CellRendererText(), but I'm passing a MessageModel. The renderer then expects a string -- translated in C that means a "gchararray", while MessageModel probably gets translated to a generic "GtkSharpValue".

I don't think this is easily fixable in any way, but I'm not setting this to 100% until I'm totally sure.
