Subject:	Problem with Bouncer		
Description:	Hi, im using since today the znc bouncer to connect to IRC, but with Smuxi it doesn't works. If i connect to localhost, znc says "You need to send your password. Try /quote PASS <username>:<password>" But if i type "/quote PASS myusername:mypassword" and press enter, nothing happens, i think Smuxi don't send the message. No, my bouncer isn't broken, with other clients it works normally.

- Category changed from Other to Engine IRC

Why don't you specify the password in the server settings when you connect? It should login then. I know that other Smuxi users are using ZNC successfully.
