Complexity:			
Found in Version:			
Subject:	Unclear information how to install only server		

Description:

Neither in Download (HOW TO GET) or the FAQ page there is information what to install if i just want install certain components.
A valid szenario for these would be to install on the server only the engine with its protocolls and not the frontends (at least not the GUI)

After installing smuxi-engine on wheezy from pbo with the following command:
<pre>
apt-get -t wheezy-backports install smuxi-engine
</pre>

there are still a plenty of packages difference to the smuxi meta-package:

<pre>
Suggested packages:
  aspell-doc spellutils ispell emacsen-common jed-extra gconf-defaults-service hunspell
  openoffice.org-hunspell openoffice.org-core libasound2-plugins libcanberra-gtk0
  libcanberra-pulse libenchant-voikko libgd-tools monodoc-gtk2.0-manual gphoto2 gtkam gvfs
  avahi-daemon hpoj hplip unpaper
The following packages will be REMOVED:
  libgd2-noxpm
The following NEW packages will be installed:
  acl aspell aspell-en colord consolekit dbus-x11 dconf-gsettings-backend dconf-service
  dictionaries-common enchant gconf-service gconf2 gconf2-common hunspell-en-us libasound2
  libaspell15 libatk1.0-0 libatk1.0-data libcairo-gobject2 libcanberra-gtk3-0
  libcanberra-gtk3-module libcanberra0 libck-connector0 libcolord1 libdbus-glib-1-2
  libdbus-glib1.0-cil libdbus1.0-cil libdbusmenu-glib4 libdconf0 libenchant1c2a
  libfile-copy-recursive-perl libgconf-2-4 libgd2-xpm libglade2-0 libglade2.0-cil
  libglib2.0-cil libgphoto2-2 libgphoto2-l10n libgphoto2-port0 libgtk-3-0 libgtk-3-bin
  libgtk-3-common libgtk2.0-0 libgtk2.0-bin libgtk2.0-cil libgtk2.0-common libgtkspell0
  libgudev-1.0-0 libgusb2 libhunspell-1.3-0 libieee1284-3 libindicate0.1-cil libindicate5
  libmono-cairo4.0-cil libnotify0.4-cil libogg0 libpam-ck-connector libpolkit-agent-1-0
  libpolkit-backend-1-0 libpolkit-gobject-1-0 libsane libsane-common libsane-extras
  libsane-extras-common libudev1 libv4l-0 libv4lconvert0 libvorbis0a libvorbisfile3
  libxcomposite1 libxcursor1 libxdamage1 libxfixes3 libxi6 libxinerama1 libxrandr2
  notification-daemon policykit-1 psmisc sane-utils smuxi smuxi-frontend-gnome
  ssh-askpass-gnome update-inetd
The following packages will be upgraded:
  udev
1 upgraded, 84 newly installed, 1 to remove and 53 not upgraded.
Need to get 23.8 MB/26.8 MB of archives.
After this operation, 113 MB of additional disk space will be used.
</pre>

it is also not obvois what the difference between the certain frontend nor how to get them properly without all

the packages available
