Smuxi Issues [FROZEN ARCHIVE] - Feature # 1045: HTML Renderer for Messages

Status:	New	**Priority:**	Normal
Author:	Mirco Bauer	**Category:**	Frontend GNOME
Created:	04/30/2015	**Assigned to:**	Mirco Bauer
Updated:	06/05/2015	**Due date:**	
Complexity:	High		
Subject:	HTML Renderer for Messages		
Description:	Smuxi should think of replacing the current GTK+ based TextView renderer. It has many known limitation and issues and thus a HTML based renderer that works on Linux, Windows and Mac OS X would be a good idea. The license has to be GPLv3+ compatible. Extra points for C API, extra extra points for C# API.
