Smuxi Issues [FROZEN ARCHIVE] - Bug # 1048: Encoding error when sending messages

Status:	Feedback	**Priority:**	Normal
Author:	Vsyache Puz	**Category:**	Engine IRC
Created:	05/02/2015	**Assigned to:**	Mirco Bauer
Updated:	05/02/2015	**Due date:**	
Complexity:	Medium		
Found in Version:			
Subject:	Encoding error when sending messages		
Description:	Scenario: 1) I chat with other people and we can read each other messages 2) I write some long messages, and it shows normally to me 3) my peer receives message in wrong encoding and can't read 4) if i send short message right after that - peer can read short message without problem

Please provide protocol debug so one can tell what Smuxi receives and sents. To get such protocol debug start Smuxi fromt the terminal like this:

<pre>

smuxi-frontend-gnome -d

</pre>

After that connect and use Smuxi as usual. If you see that issue again, switch to the Server chat of the IRC network and copy/paste the messages from it into this ticket.
