<b>Updated:</b>	10/20/2016	<b>Due date:</b>	
<b>Complexity:</b>			
<b>Subject:</b>	Beagle search integration		
<b>Description:</b>	<p>There is an application - Beagle Search ( <a href="https://github.com/GNOME/beagle">https://github.com/GNOME/beagle</a> ), which provides rich UI for searching with NLucene.</p> <p>The idea is to provide integration with smuxi, to allow search words/lines, and show them in smuxi interface after clicking on search results in beagle</p>		

### History

**06/06/2015 12:55 AM - Mirco Bauer**

Is beagle still usable and maintained these days?

**10/20/2016 11:10 AM - Mirco Bauer**

- Subject changed from Search integration to Beagle search integration
