Subject:	Can't close open rooms with ctrl+w		
Description:	After opening up a dozen rooms, i tried to close some of them using ctrl+w. This doesn't work, but right clicking on the label at the top and choosing close does work.

Thats true, the shortcut isn't registered correctly, once you right click on a tab you can use ctrl+w, but not before that. As workaround you can also use:
/window close
