Implementation of notification popups. (closes: #176)

Complete implementation of notification popups with action, icon, update,

append and sound support and as defined in

Desktop Notifications Specification 0.9 / 1.1:

<http://www.galago-project.org/specs/notification/0.9/>

<http://people.canonical.com/~agateau/notifications-1.1/spec/>

and Ubuntu's Notify-OSD Guidelines:

<https://wiki.ubuntu.com/NotificationDevelopmentGuidelines>

Tested successfully against notify-osd 0.9.23, notification-daemon 0.5.0, and xfce4-notifyd 0.1.0.

Includes a hack for notification-daemon-xfce as that is not conformant with the 0.9 specification and sends broken NotificationClosed dbus replies.

+1 Yes this would nice when one spoke your name.

#### 01/05/2010 02:58 AM - Mirco Bauer

- Complexity set to High

#### 04/24/2010 08:54 PM - Mirco Bauer

Maybe some newer framework should be used instead, see: <https://wiki.ubuntu.com/DesktopExperienceTeam/ApplicationIndicators>

#### 08/10/2010 03:32 AM - Mirco Bauer

- Status changed from New to Closed

- % Done changed from 0 to 100

Applied in changeset commit:"9c4c0f9dad2cbc8eb17bd78bd2afdb0e25bf8f11".

#### 08/10/2010 03:33 AM - Mirco Bauer

- File *smuxi-0.8-dev-notify-osd.png* added

- Target version set to 0.8
