Complexity:	Low		
Subject:	Please support banshee-style tray behaviour		
Description:	<p>Hi,</p> <p>This is a feature request for banshee-style tray behaviour:</p> <ul style="list-style-type: none">- The notification icon is always shown- Clicking the close button should minimise to tray <p>(I think the tray configuration UI is unintuitive btw - IMO it's unnecessary; don't think many other applications support this kind of configuration. But that is another issue I guess.)</p> <p>Iain</p>
