I guess I should also add that this is happening when I run it on windows 7 and I am connecting to the smuxi engine via ssh tunnel. I also use smuxi on slackware linux and do not encounter this problem.

11/15/2009 10:38 PM - Evil Donkey

It started working again after a reboot.

0_0

11/16/2009 10:31 PM - Mirco Bauer

This looks like the issue seen in #198 and I have no idea where it comes from and why it happpens only sometimes.

11/22/2009 01:46 AM - Mirco Bauer

- Target version changed from 0.6.4.1 to 0.7

11/22/2009 12:58 PM - Evil Donkey

it has happened again since then and rebooting didn't work. I ended up having to ssh my server and restart the smuxi engine. it worked fine after that. Still no problems using the frontend on linux though.

11/22/2009 04:08 PM - Evil Donkey

I got the error again. I closed the frontend, and sometime after that my internet connection had dropped and reconnected. I checked the server console and there were messages like this:

2009-11-22 09:04:35,813 [IrcProtocolManager (irc.freenode.net:6667) listener] WARN Smuxi.Engine.IrcProtocolManager - _Run(): _Listen() returned.

as well as one for all the other servers I connect to. the console just keeps repeating them. Restarting the engine solves the problem.

12/03/2009 03:51 PM - Evil Donkey

well.. it happens a lot more than just when my connection drops. And sometimes it wont happen after power cycling my router. So it's very strange. Just a random problem I guess.

12/29/2009 02:05 AM - Mirco Bauer

Good news for you, I could track this issue down with the help of Cobrian, check the #198 ticket for the updates. I will add a workaround for this issue in the next release!

12/29/2009 05:43 PM - Mirco Bauer

- Status changed from New to Closed

Applied in changeset commit: 28f733c9890edac6dcad798bb373006bbac44c9c".
