Subject:	NullReferenceException on start with auto-connecting Twitter account		
Description:	I just installed the Smuxi 0.7 backports from debian.meebey.net.		

My Debian installation was completely clean of any kind what has to do with smuxi (I purged it).
After adding a twitter account with auto-connect and restarting smuxi to test if the auto-reconnection works, smuxi crashes with the following exceptions:

<pre>
Exception Type:
System.NullReferenceException

Exception Message:
Object reference not set to an instance of an object

Exception StackTrace:
