

## Smuxi Issues [FROZEN ARCHIVE] - Feature # 300: mirror notice on active tab

<b>Status:</b>	New	<b>Priority:</b>	Low
<b>Author:</b>	Ingo Saitz	<b>Category:</b>	Engine IRC
<b>Created:</b>	01/15/2010	<b>Assigned to:</b>	
<b>Updated:</b>	02/05/2012	<b>Due date:</b>	
<b>Complexity:</b>	Medium		
<b>Subject:</b>	mirror notice on active tab		
<b>Description:</b>	It would be a nice feature to mirror a notice in the currently opened tab in the frontend, if that belongs to the same server. Should be configurable, though.		
<p>&lt;Salz&gt; hm, it would be a nice feature though to mirror the notice in the current opened tab &lt;Salz&gt; if it is on the same server &lt;meebey&gt; Salz: please file a ticket for that &lt;meebey&gt; Salz: smuxi knows the current tab of the frontend &lt;meebey&gt; Salz: so it can copy it there &lt;meebey&gt; ahh no &lt;meebey&gt; nvm &lt;Salz&gt; shouldn't the frontend do this? what happens if you have several clients? &lt;meebey&gt; only it was a command from the user &lt;meebey&gt; notices come from the IRCd &lt;meebey&gt; so smuxi needs to duplicate that to all frontend managers &lt;meebey&gt; doable but more nasty &lt;Salz&gt; Salz: no, the client doesn't even know what CTCP is &lt;meebey&gt; it has to be an engine feature &lt;meebey&gt; in that case a protocol manager feature &lt;Salz&gt; meebey: yes but you could send out a "notice \$text on \$server" to the frontends &lt;Salz&gt; however that would translate to rpc calls in mono :)</p>			

### History

**01/16/2010 12:08 AM - Mirco Bauer**

- Category set to Engine IRC
- Target version set to 0.7.1
- Complexity set to Medium

**01/31/2010 08:26 PM - Mirco Bauer**

- Target version changed from 0.7.1 to 0.7.2

**06/13/2010 06:08 PM - Mirco Bauer**

- Target version changed from 0.7.2 to 0.8

**08/29/2010 11:54 PM - Mirco Bauer**

- Target version changed from 0.8 to TBD

**02/05/2012 11:31 AM - Mirco Bauer**

- Target version deleted (TBD)
