Complexity:			
Subject:	connection to ircd lost, smuxi seems to be unaware of that		
Description:	<p>Since 2 days the network for freenode was dead in smuxi frontend (did not notice before as I was practically 2 days off irc), userlist was empty, no new messages shown, status showed "connection established", no lag, no errors in server-tab.</p> <p>Me as user, I have no idea if the connection is lost (no real indication of that in the frontend), but meebey told me so ;)</p>		

Associated revisions
