

## Smuxi Issues [FROZEN ARCHIVE] - Feature # 340: Progress bar for Preferences loading/saving

<b>Status:</b>	New	<b>Priority:</b>	Normal
<b>Author:</b>	Kalle Kaitala	<b>Category:</b>	Frontend GNOME
<b>Created:</b>	02/07/2010	<b>Assigned to:</b>	Mirco Bauer
<b>Updated:</b>	02/07/2010	<b>Due date:</b>	
<b>Complexity:</b>			
<b>Subject:</b>	Progress bar for Preferences loading/saving		
<b>Description:</b>	Whenever a user enters File->Preferences (or any tab therein, for example via Server->Manage), there is a period of unresponsiveness, especially for slow/high latency connections while the preferences are being loaded/saved. Add progress bars to indicate that something is really happening instead of the user having to wonder if his frontend has crashed.
