Subject:	Inconsistent highlight coloring		
Description:	<p>21:28 <meebey> ich denke langfristig sollte ich da mit einem hintergrund arbeiten 21:29 <meebey> entweder das wort hat dann einen besonderen hintergrund oder der rest halt 21:29 <meebey> so das man a) highlights sofort in zwischen allen nachrichten sieht 21:29 <meebey> b) das exakte highlight wort aber auch sichtbar ist 21:32 <meebey> es darf nur das wort gehighlightet werden und der res sollte einen highlight bg kriegen 21:33 <meebey> oder evtl timestamp bekommt farbe</p> <p>summarized translation: on the longterm meebey wants to work with a background 1) either the word with a specific background 2) only the word should get highlighted and the rest should get a background 3) the timestamp gets colored</p>
