Updated:	06/06/2010	Due date:	
Complexity:	Low		
Subject:	password with only digits fail to work with remote engines		

Description:	adding a remote engine to the frontend with a number only password works, but when connecting it fails with:
	
	 \<pre\>
	 An error occurred while connecting to the engine!
	
	 Engine URL:
	 Error: Cannot cast from source type to destination type.
	 \</pre\>
	
	 when trying to edit, it fails with:
	 \<pre\>
	 Exception Type:
	 System.InvalidCastException
	
	 Exception Message:
	 Cannot cast from source type to destination type.
	
	 Exception StackTrace:
