| **Subject:** | Stack Trace for unhandled exception - value <channel> was not found | | |
| **Description:** | This is the stack trace: Exception Type: System.ArgumentException  Exception Message: The requested value '#stammtisch' was not found.  Exception StackTrace: at System.Runtime.Remoting.Proxies.RealProxy.PrivateInvoke (System.Runtime.Remoting.Proxies.RealProxy rp, IMessage msg, System.Exception& exc, System.Object[]& out_args) [0x00000]  What I did: Twitter got an error as usual, which means no new message would be received. I wanted to close Twitter and restart it - closing with middle mouse button  Bug one: sometimes Smuxi is not closing the Twitter tabs, but those of the first IRC-network open in tab-list  Okay I rejoined first the IRC-Network, then the Twitter-Network. Shortly afterwards I wanted to write a message in #Stammtisch (already joined) and got a crash | | |
