| **Subject:** | send notices from users to channels and querys where useful | | |
| **Description:** | When you and a user "foo" is on channel #chan and sends you a notice, not only show the notice on the network chat but also on that channel. Same goes with a query chat (if exists). | | |

[Engine-IRC] Reworked how private notices are handled

- A notice will no longer open new tabs, instead show the notice on the
  server tab. This avoids NickServ/ChanServ spam (closes: #554) and
  also IRCop tab spam (closes: #226)
- Notices from users you share channels with will also be shown on the
  channel and the server tab to make it easier to see their notices.
