Subject:	Channel search / list on GIMPnet doesn't work		
Description:	Doing a channel search on GIMPnet will always show an empty list. The issue is that Smuxi is always sending a wildcard pattern which the IRCd implementation of GIMPnet doesn't like and thus returns an empty list. Here a dump of the protocol chat: <pre><pre> T 192.168.0.13:40518 -> 192.219.30.200:6667 [AP] LIST **.. ## T 192.219.30.200:6667 -> 192.168.0.13:40518 [AP] :irc.gimp.ca 321 meebey_ Channel :Users Name.:irc.gimp.ca 323 meebey_ :End of /LIST.. </pre></pre>
