

## Smuxi - Feature # 421: /clear should clear the TextView, not the Buffer

<b>Status:</b>	New	<b>Priority:</b>	Normal
<b>Author:</b>	Jonathan Pryor	<b>Category:</b>	Frontend GNOME
<b>Created:</b>	07/28/2010	<b>Assigned to:</b>	Mirco Bauer
<b>Updated:</b>	04/17/2012	<b>Due date:</b>	
<b>Complexity:</b>			
<b>Subject:</b>	/clear should clear the TextView, not the Buffer		
<b>Description:</b>	<p>/clear should clear the view, not the buffer.</p> <p>The semantics I'm after are the same as gnome-terminal `clear` and irssi `/clear`.</p> <p>Consider gnome-terminal:</p> <pre>\$ cat some-large-file.txt # terminal is now filled with text, prompt at bottom of window \$ clear # prompt now at top of window &lt;SHIFT+PgUP&gt; # You can now view the text that you previously cleared.</pre> <p>irssi is the ~same: after /clear, the screen contents are cleared but you can use PgUp to view the buffer.</p>		

### History

**07/28/2010 01:34 AM - Mirco Bauer**

- Target version set to 0.8

I am not sure Gtk.TextView allows to scroll further than the allocated buffer but I will look into this.
