Show complete retweeted status text if it was truncated. (closes: #445)

The issue exactly is that retweeted messages get automatically truncated if longer than 170 chars which can easily happen as "RT @\$nick: " gets prepended. E.g.:

```
<pre>
...
<text>RT @shaver: @migueldeicaza, 2004: &quot;worst case scenario is one where Sun goes down the drain but still sitting on a pile of patents&quot; http ...</text>
<truncated>true</truncated>

  http://bit.ly/9aj9xu</text>
  <truncated>>false</truncated>
  ...
</retweeted_status>
</pre>
```
