Show complete retweeted status text if it was truncated. (closes: #445)

The issue exactly is that retweeted messages get automatically truncated if longer than 170 chars which can easily happen as "RT @$nick: " gets prepended. E.g.:

<pre>

...

<text>RT @shaver: @migueldeicaza, 2004: "worst case scenario is one where Sun goes down the drain but still sitting on a pile of patents" http ...</text>

<truncated>true</truncated>

   <text>@migueldeicaza, 2004: "worst case scenario is one where Sun goes down the drain but still sitting on a pile of patents" http://bit.ly/9aj9xu</text>

  <truncated>false</truncated>

  ...

</retweeted_status>

</pre>
