Subject:	Trim newline excess in twitter messages		
Description:	Newlines are supported by Twitter in messages. Some rss2twitter feeds though are using too many newlines		
	which will give a cluttered experience. Here is an example:		
	<pre><pre></pre></pre>		
	07:56:40 <planetdebian> Matthew Palmer: Anticlimax:</planetdebian>		
	This		
	sounds exciting:

	Smuxi should probably remove empty lines between newlines.

Maybe even all newlines should be removed. Tweetdeck for example is neither showing newlines nor can it send any.
