<b>Subject:</b>	Show Smuxi's news feed on the Smuxi tab		
<b>Description:</b>	<p>Right now the Smuxi tab is a bit featureless and only shows a welcome message and a hint how to get a command list with help text.</p> <p>But It should also unless not disabled by config show the Smuxi news feed from smuxi.org. This way all users would be always up2date when it comes to announcements of new versions or important information when things break, like the basic auth shutdown of Twitter. Once per day it should also refresh the feed and show new items, this is especially useful for smuxi-server users.</p>
