Subject:	Support creating new servers with connect		
Description:	<p>It took me several minutes to figure out that I had to add servers before using /connect on them.</p> <p>irssi's /connect looks like this:</p> <pre>CONNECT [-4 -6] [-ssl] [-ssl_cert <cert>] [-ssl_pkey <pkey>] [-ssl_verify] [-ssl_cafile <cafile>] [-ssl_capath <capath>] [-noproxy] [-network <network>] [-host <hostname>] [-rawlog <file>] <address> <chatnet> [<port> [<password> [<nick>]]]</pre> <p>It would be awesome if smuxi's supported taking a server parameter (and the rest of them) and created the server record if it doesn't already exist.</p>
