

Smuxi Issues [FROZEN ARCHIVE] - Bug # 515: Parallel build tends to fail and cause sharing violation

Status:	Closed	Priority:	Normal
Author:	Pacho Ramos	Category:	Other
Created:	10/05/2010	Assigned to:	Mirco Bauer
Updated:	11/20/2011	Due date:	
Complexity:	Medium		
Subject:	Parallel build tends to fail and cause sharing violation		
Description:	<p>When trying to bump to 0.8 smuxi ebuild (for Gentoo users), I noticed build failed from time to time when toggling "debug" configure option but, later, I saw that the problem didn't occur when forcing its compilation disabling parallel build.</p> <p>The error I was seeing is the following:</p> <pre>: error CS0016: Could not write to file `/var/tmp/portage/net-irc/smuxi-0.8/work/smuxi-0.8/bin/debug/obj/Debug/Twitterizer2.dll', cause: Sharing violation on path /var/tmp/portage/net-irc/smuxi-0.8/work/smuxi-0.8/bin/debug/obj/Debug/Twitterizer2.dll Task "Csc" execution -- FAILED Done building target "CoreCompile" in project "/var/tmp/portage/net-irc/smuxi-0.8/work/smuxi-0.8/lib/Twitterizer/Twitterizer2/Twitterizer2.csproj".-- FAILED Target _GetCompileOutputsForClean: Target _RecordCleanFile: Done building project "/var/tmp/portage/net-irc/smuxi-0.8/work/smuxi-0.8/lib/Twitterizer/Twitterizer2/Twitterizer2.csproj".-- FAILED Build FAILED. - Category changed from Common to Other
- Target version changed from 0.8 to 0.8.9

Is it acceptable for you if I override make's setting to suppress -j > 0? The build will then no longer fail but will also not take advantage of parallel builds. As Smuxi builds in less than 30 seconds using -j1 I don't think it's worth it to add support for parallel builds:

```
<pre>
make[1]: Leaving directory `/home/meebey/data/projects/c-sharp/smuxi/git'
real 0m18.039s
user 0m17.053s
sys 0m1.212s
</pre>
```

Thank you very much for finding out what the cause of #492 is, I wasn't able to reproduce it. (as I am not using make -j > 0).

10/06/2010 08:36 AM - Pacho Ramos

From my point of view, if it's too hard to fix, would be better to force "-j1" but, of course, would be better to try to solve it since probably people owning machines with multiple cores would get it built much faster :-)

11/20/2011 01:31 PM - Mirco Bauer

- Status changed from New to Closed

- % Done changed from 0 to 100

Applied in changeset commit:"12cedb7290f6b6fe2765432c0b5bf73c25a94922".
