Subject:	prefer last used nicks with tab completion		
Description:	when i use nick name completion, i often end up getting the wrong nick because other nicks have the same few first letters. like if there is ohshaith55 and ohshaith-laptop in a channel and ohshaith-laptop spoke last, smuxi currently would randomly complete to one or the other. instead, smuxi should autocomplete to ohshaith-laptop.

[Frontend-(GNOME|STFL)] Implement last-speaker-first completion ordering (fixes #558).

Allow ordering of completion suggestions by who spoke last. Useful for those

pesky idlers. ;-)
