- Category changed from Common to Engine
- Target version deleted (0.8)
- Complexity set to Low

This seems to be a limitation of the INI file parser used, it uses " to mark the beginning and end of the value. Unfortunately it doesn't seem to have any escape character for it, see:

<http://nini.svn.sourceforge.net/viewvc/nini/trunk/Nini/Source/Ini/IniReader.cs?revision=242&view=markup#l424>

Smuxi could replace the " character with something else and replace it back when reading the config...
