| <b>Description:</b> | I'm not allowed to use the character " when adding content to the On Connect commands.<br><br>Example:<br>_/_msg BOTNAME LOGIN "username" "password"_<br>_/_join #special_<br><br>Result:<br>_/_msg BOTNAME LOGIN_<br><br>Be sure to restart the program. |                     |             |

### History

**08/17/2011 10:10 PM - Mirco Bauer**

- Category changed from Common to Engine
- Target version deleted (0.8)
- Complexity set to Low

This seems to be a limitation of the INI file parser used, it uses " to mark the beginning and end of the value. Unfortunately it doesn't seem to have any escape character for it, see:

<http://nini.svn.sourceforge.net/viewvc/nini/trunk/Nini/Source/Ini/IniReader.cs?revision=242&view=markup#l424>

Smuxi could replace the " character with something else and replace it back when reading the config...
