Smuxi Issues [FROZEN ARCHIVE] - Feature # 62: logging support

Status:	Closed	**Priority:**	Urgent
Author:	Mirco Bauer	**Category:**	Engine
Created:	07/21/2008	**Assigned to:**	Mirco Bauer
Updated:	07/04/2010	**Due date:**	
Complexity:	Medium		
Subject:	logging support		
Description:	Smuxi should be able to log conversations (person and group chats). Provinding a logging API and then allow plugins to implement actual loggers should be a good base. Here a list of possible logging plugins/formats: irssi-like format, universal RDBMS (using [[SmartDao]]) and xml.

Not sure if this will really make it into 0.7, as it needs the plugin API, but I will set 0.7 as milestone for now!

Please allow the logging to conform to irssi logging output:

  - Plain text files (good for use with grep, less, etc.)
  - filenames of NETWORK/CHANNEL.log (e.g. freenode/##csharp.log)
  - Lines of: HH:MM <NICK> COMMENT
    - e.g.: 13:53 < zeroflag> fine.

01/05/2010 03:11 AM - Mirco Bauer

- Complexity set to High

06/14/2010 04:54 PM - Mirco Bauer

- Target version changed from 0.8 to 0.7.2

- Complexity changed from High to Medium

As initial logging support I think a plain text file (like irssi does) will do the job in most cases. Later we can add more advanced logging.
