

Smuxi - Bug # 634: messages get lost while tab is opened and synchronized

Status:	Closed	Priority:	Urgent
Author:	Bianca Mix	Category:	Engine
Created:	10/18/2011	Assigned to:	Mirco Bauer
Updated:	08/25/2013	Due date:	
Complexity:	High		
Found in Version:			
Subject:	messages get lost while tab is opened and synchronized		
Description:	I've been sent 3 messages while the tab was closed. The first and the last message were shown while the second was missed by the frontend. The message reached the frontend as the highlight notification was triggered and the debug mode on the server-tab indicated all three messages. According to meebey this is a race condition which is related to opening and synchronizing the tab while the next message is already received

This issue will be fixed with a snapshot based chat sync. Here is an experimental git branch for this:

http://git.qneta.net/?p=smuxi.git;a=shortlog;h=refs/heads/experiments/sync_snapshots

08/22/2013 01:36 AM - Mirco Bauer

- Target version changed from 0.10 to 0.8.11.1

This should get at least a workaround as short-term solution, this bug is really annoying.
