<b>Subject:</b>	Find group chat not working correctly on freenode		
<b>Description:</b>	Doing a find group chat on freenode with a search key but no pattern/wildcard (*) will lead to a <code>_full_</code> channel list: e.g. "debian". Internally that gets changed to <code>"*debian"</code> before being sent to the IRC server and for some reason freenode completely ignores the search key then.		

### Associated revisions

12/25/2011 02:11 PM - Mirco Bauer

[Engine-IRC/Frontend-GNOME] Implemented channel list cache with SAFELIST and ELIST support (closes: #548, #655)

### History

12/22/2011 07:28 AM - Mirco Bauer

Smuxi needs to check if ELIST of RPL\_ISUPPORT contains M. If not, it needs to fetch a full list and match itself.
