Smuxi Issues [FROZEN ARCHIVE] - Bug # 744: Menu Bar area has wrong colors

Status:	Closed	**Priority:**	Normal
Author:	Martin Roth	**Category:**	Frontend GNOME
Created:	08/23/2012	**Assigned to:**	Mirco Bauer
Updated:	03/03/2013	**Due date:**	
Complexity:	Low		
Found in Version:	0.8.10.1		
Subject:	Menu Bar area has wrong colors		
Description:	After installing Smuxi 8.9 on a fresh Windows 7 installation it ran and looked great. When upgrading to Smuxi 8.10 the looks seemed to take a hit; the Menu Bar area now has lost its consistent light blue color. That is, after the 'button area' ends it is now gray instead. Old, nice and consistent light blue: http://postimage.org/image/6cattryut/full/ New, ugly and inconsistent with two colors: http://postimage.org/image/olv7d1dsx/full/ And as mentioned, this is all from running default settings, without having tempered with any themes, GTK settings, GUI options, etc.		

History

08/23/2012 12:50 PM - Mirco Bauer

- Category changed from Frontend to Frontend GNOME

- Target version set to 0.8.10.2

- Complexity set to Low

- Found in Version changed from 8.10.1 to 0.8.10.1

12/16/2012 05:41 PM - Mirco Bauer

It's a bug in the menu that it doesn't expand/fill the available area.
