<b>Subject:</b>	remove join+part message of inactive contacts		
<b>Description:</b>	<p>Most of my chat windows are filled with quit+join or join+part or join+quit messages of people that don't write a single line of text or during a time where they don't.</p> <p>It would be great if messages following each other directly could be removed.</p> <p>Even better would be if they'd be removed, even in cases where they don't follow each other directly, but don't fulfill any purpose.</p>
