Subject:	Smuxi needlessly sends a WHO command for each user that joins a channel		
Description:	These automatic WHO requests are also the cause of Excess Flood disconnects that occur after netsplits due to the massive amount of joins seen on channels when the netsplit ends. See #308

[Engine-IRC] Implemented passive channel sync (closes: #787)

Joining channels is now much faster and we no longer need to send WHO
requests for every joined user in a channel.
