<b>Subject:</b>	Lining out messages horizontally		
<b>Description:</b>	I would like to be able to line out the start of chat messages, regardless of nick length. That way, timestamp, nickname and message will have their own "column", which makes the layout easier to read at a glance. Right now I'm having issues telling join/part messages apart from chat messages, but I don't want to just filter join/parts out.
