

Smuxi - Feature # 812: pass multi-line messages to engine as-is

Status:	Closed	Priority:	Normal
Author:	Oliver Schneider	Category:	Frontend GNOME
Created:	02/09/2013	Assigned to:	Oliver Schneider
Updated:	03/03/2013	Due date:	
Complexity:	Medium		
Subject:	pass multi-line messages to engine as-is		
Description:	when sending more than one line (e.g. pasting source code or with Ctrl+Return), smuxi always splits it into multiple lines. for xmpp messages this is not the preferred way. I want some way of configuring this (on a per chat basis?)

- Category set to Engine
- Complexity set to Medium

Engine-Campfire has the same issue. Carlos wanted to implement paste-support for Campfire but couldn't because Frontend-GNOME splits each newline into a new CommandModel object in Entry_OnActivated().

I have no idea how the frontend should

- tell multi-line message and a list of commands apart
- pass the multi-line message to the engine

Maybe the frontend should detect newlines and assume it is possibly multiple messages and show a warning BUT should simply not touch/split the message and let the engine deal with splitting it up or not.

02/20/2013 06:30 AM - Mirco Bauer

- Subject changed from allow multi-line messages to pass multi-line messages to engine as-is
- Category changed from Engine to Frontend GNOME

03/01/2013 05:01 PM - Mirco Bauer

- Assigned to set to Oliver Schneider
- Target version set to 0.9

03/01/2013 05:50 PM - Oliver Schneider

- Status changed from New to Closed
- % Done changed from 0 to 100

Applied in changeset commit:"6b3305b48b8f0a1ff22f9521535b5b1de0b36382".
