<b>Updated:</b>	02/26/2013	<b>Due date:</b>	
<b>Complexity:</b>			
<b>Subject:</b>	Proper Contactlist for xmpp		
<b>Description:</b>	Current xmpp-contactlist is a default groupchat.  Either create groupchat sub-class (wasteful of screen space, as the chat window is only used for presence messages) Or create a custom contactlist chat window. the latter would enable multiple lists next to each other for xmpp-contact groups.
