

## Smuxi - Bug # 830: Crashes on opensuse 12.3

<b>Status:</b>	Rejected	<b>Priority:</b>	High
<b>Author:</b>	Brandon Watkins	<b>Category:</b>	
<b>Created:</b>	04/16/2013	<b>Assigned to:</b>	
<b>Updated:</b>	02/23/2016	<b>Due date:</b>	
<b>Complexity:</b>			
<b>Found in Version:</b>	0.8.10		
<b>Subject:</b>	Crashes on opensuse 12.3		
<b>Description:</b>	<p>Installing smuxi on a clean (but fully updated) install of opensuse 12.3 results in an immediate crash every time I try to open smuxi. the GUI just never opens. If I open it via the terminal I see these errors:</p> <pre>Missing method System.Reflection.Assembly::op_Equality(Assembly,Assembly) in assembly /usr/lib/mono/2.0/mscorlib.dll, referenced in assembly /usr/lib/mono/gac/log4net/1.2.10.0__200a2bd1219e83a8/log4net.dll  Unhandled Exception: System.TypeInitializationException: An exception was thrown by the type initializer for Smuxi.Frontend.Gnome.MainClass ---&gt; System.MissingMethodException: Method not found: 'System.Reflection.Assembly.op_Equality'.    at log4net.LogManager.GetLogger (System.Reflection.Assembly repositoryAssembly, System.String name) [0x00000] in &lt;filename unknown&gt;:0    at log4net.LogManager.GetLogger (System.Type type) [0x00000] in &lt;filename unknown&gt;:0    at Smuxi.Frontend.Gnome.MainClass..cctor () [0x00000] in /home/abuild/rpmbuild/BUILD/smuxi-0.8.10.1/src/Frontend-GNOME/Main.cs:36 --- End of inner exception stack trace --- [ERROR] FATAL UNHANDLED EXCEPTION: System.TypeInitializationException: An exception was thrown by the type initializer for Smuxi.Frontend.Gnome.MainClass ---&gt; System.MissingMethodException: Method not found: 'System.Reflection.Assembly.op_Equality'.    at log4net.LogManager.GetLogger (System.Reflection.Assembly repositoryAssembly, System.String name) [0x00000] in &lt;filename unknown&gt;:0    at log4net.LogManager.GetLogger (System.Type type) [0x00000] in &lt;filename unknown&gt;:0    at Smuxi.Frontend.Gnome.MainClass..cctor () [0x00000] in /home/abuild/rpmbuild/BUILD/smuxi-0.8.10.1/src/Frontend-GNOME/Main.cs:36 --- End of inner exception stack trace ---</pre>		

### History

This is because mono not using the correct runtime. You can fix this to add the following lines into the <configuration> Section in the files

```
/usr/lib/smuxi/smuxi-server.exe.config
```

```
/usr/lib/smuxi/smuxi-frontend-gnome.exe.config
```

```
<startup>
```

```
  <supportedRuntime version="v4.0.30319" />
```

```
</startup>
```

regards

Kai

**04/29/2013 10:23 AM - Kai Korla**

-<startup>

<supportedRuntime version="v4.0.30319" />

</startup>-

Please use

<startup>

<supportedRuntime version="v4.0" />

</startup>

regards

Kai

I hope the packages will be fixed by passing MCS=/usr/bin/dmcs to ./configure, else it will use the default compiler which is /usr/bin/gmcs. Do you know if opensuse has a bug report about this already? Because in Smuxi I can't fix this...

**02/23/2016 12:16 PM - Mirco Bauer**

- *Status changed from New to Rejected*

This is not a bug in Smuxi
