<b>Complexity:</b>			
<b>Subject:</b>	bashstyle completion of commands		
<b>Description:</b>	<p>The bashstylecompletion works good for nicks etc. Within mIRC this is just autocompletion on nicks. My interperatation of bash completion was also the commands from IRC. This would be a nice feature wich not allot of irc clients have.</p> <p>Also i would like to suggest to set this option as enabled by default. Tabbing branded into my brain with using shells.</p>
