Smuxi - Bug # 87: new tabs opens at front instead of end

Status:	Closed	**Priority:**	High
Author:	Lycaon -	**Category:**	Frontend GNOME

Subject:	new tabs opens at front instead of end		
Description:	When joining a channel or opening a new tab, it is unnatural that a tab gets opened at position 1.		
	As an example when i have the following channels open:		
	[test1] - [test2] - [test3] - [test4]		
	so when i type: /join #test5 a "normal" user would expect that the tab/channel gets added at the end of the list. No smuxi adds the tab in front of the existing tabs resulting in this:		
	[test5] - [test1] - [test2] - [test3] - [test4]		
	I checked if it maybe was sorted alphabetical, but no it wasn't.		
	Just a suggestion
