Complexity:			
Subject:	Carretmode default on		
Description:	I suggest carretmode always be on as default when smuxi first starts. Loads of irc clients have this option to, but it's always on by them. Users would like a smooth migration from a other irc client to yours right?

- Status changed from New to Closed

- 1 set to wontfix

Caret mode can't be the default, as that would make loosing the focus very easily, for that reason it needs to be enabled explicitly.
