What is your exact Smuxi version? (check Help -> About) and it could be that your network or some other server detail is just numbers?

01/03/2014 03:13 PM - Mirco Bauer

- Category set to Engine

- Status changed from New to Feedback

- Assigned to set to Mirco Bauer

- Priority changed from Normal to Urgent

- Target version set to 0.10.1

It's from the Ubuntu PPA.

Vendor: Debian 0.10-1~saucy+1

Frontend: GNOME 0.10.0.0

Engine: 0.10.0.0

01/03/2014 09:03 PM - Joey Stanford

This was happening all the time so network was not the issue. I also noticed that the left sidebar with the servers and channels was missing. I was able to quickly change to a different server and was able to access the preferences menu. I set the "Persistent Buffer Lines" value from 50000 to 5000 and I no longer have any errors. (at least not at the moment)

01/03/2014 09:25 PM - Joey Stanford

Upon restarting I found that the errors have gone away but the server/channel list window will not display until I go into preferences and click ok. Really odd behaviour!

02/15/2016 11:41 AM - Mirco Bauer

- Target version changed from 0.10.1 to TBD
