

## Smuxi Issues [FROZEN ARCHIVE] - Bug # 951: XMPP: bad user experience when message from server 'foo'

<b>Status:</b>	New	<b>Priority:</b>	Normal			
<b>Author:</b>	Andrés G. Aragoneses	<b>Category:</b>	Engine XMPP (Jabber)			
<b>Created:</b>	01/28/2014	<b>Assigned to:</b>	Oliver Schneider			
<b>Updated:</b>	07/13/2014	<b>Due date:</b>				
<b>Complexity:</b>						
<b>Found in Version:</b>	0.11+dev.bzr411					
<b>Subject:</b>	XMPP: bad user experience when message from server 'foouser@axmppservername.net wishes to subscribe to you'					
<b>Description:</b>	I connect to a XMPP server named axmppservername.net, then I join a room, then a user sees me there and he seems to invite a contact request, then Smuxi tells me in the "Contacts" tab: 'foouser@axmppservername.net wishes to subscribe to you'					
<p>This is bad because I don't know how to act on that. There doesn't seem to be an /accept command or a /subscribe one that receives the user email id as an argument.</p>						
<p>Using Smuxi Vendor: Debian 2:0.11+dev.bzr411~ubuntu13.04.1 Frontend: GNOME 0.11.0.0 Engine: 0.11.0.0</p>						

### History

01/28/2014 05:23 PM - Andrés G. Aragoneses

- Category set to Engine XMPP (Jabber)

01/28/2014 05:33 PM - Andrés G. Aragoneses

- File HowPidginActs.png added

This is how pidgin does it.

07/13/2014 01:42 PM - Oliver Schneider

> There doesn't seem to be an /accept command or a /subscribe one that receives the user email id as an argument.

it is planned for the future to be similar to pidgin (like clicking a link to accept or deny)

right now you use "/add emailId"

though it could be added to the message as a hint and for copypasting

07/13/2014 01:43 PM - Oliver Schneider

- Assigned to set to Oliver Schneider
