

Smuxi - Bug # 969: IOException when starting for the first time while having a migrated .config/smuxi directory

Status:	Rejected	Priority:	Normal
Author:	Andrés G. Aragoneses	Category:	Common
Created:	05/14/2014	Assigned to:	Mirco Bauer
Updated:	05/14/2014	Due date:	
Complexity:	Low		
Found in Version:	0.11~rc5-1		
Subject:	IOException when starting for the first time while having a migrated .config/smuxi directory		
Description:	<p>Steps to reproduce:</p> <ol style="list-style-type: none">1. Happily use Smuxi in an old OS (i.e. Ubuntu 13.04) -> (settings in /home/foo/.config/smuxi).2. Install some new OS (in my case Ubuntu 14.04), using the new user /home/foo14/3. Install smuxi (apt-get).4. Do a symlink from /home/foo14/.config/smuxi to /home/foo/.config/smuxi (adjust permissions et-al).5. Run smuxi in foo14's session. <p>Expected results:</p> <p>Should just work(TM) with my previous settings.</p> <p>Current results:</p> <p>Exception Type:</p> <p>System.IO.IOException</p> <p>Exception Message:</p> <p>Cannot create /home/knocte1404/.config/smuxi because a file with the same name already exists.</p> <p>Exception StackTrace:</p> <pre>at System.IO.Directory.CreateDirectory (System.String path) [0x000000] in <filename unknown>:0 at Smuxi.Engine.Config..ctor () [0x00045] in /build/buildd/smuxi-0.11~rc5/src/Engine/Config/Config.cs:92 at Smuxi.Engine.FrontendConfig..ctor (System.String uiName) [0x00000] in /build/buildd/smuxi-0.11~rc5/src/Engine/Config/FrontendConfig.cs:59 at (wrapper remoting-invoke-with-check) Smuxi.Engine.FrontendConfig..ctor (string) at Smuxi.Frontend.Gnome.Frontend.Init (System.String[] args) [0x000a9] in /build/buildd/smuxi-0.11~rc5/src/Frontend-GNOME/Frontend.cs:210 at Smuxi.Frontend.Gnome.MainClass.Main (System.String[] args) [0x000b2] in /build/buildd/smuxi-0.11~rc5/src/Frontend-GNOME/Main.cs:75</pre>
