#### History

### 09/01/2014 04:07 PM - Mirco Bauer

- Category set to Frontend
- Assigned to set to Mirco Bauer
- Priority changed from Normal to Immediate
- Complexity set to High
- Found in Version set to git

This is a race condition we also ran into. After some attempts to bring the synchronization back between Sync and Add request I decided I will have to revert the changes of the new\_sync\_manager branch.

### 09/01/2014 05:59 PM - Mirco Bauer

Either the sync manager needs to cope with this issue (doing the needed synchronization itself), each frontend needs to work around or deal with it.
