| Subject: | away status not cleared when attaching to a znc server | | |
| Description: | <p>Hi,</p> <p>On Ubuntu Trusty (and apparently before this version as well)...</p> <p>When DEtaching the Smuxi local engine from a ZNC server, /away is correctly set.</p> <p>When REattaching the Smuxi local engine back to the ZNC server, /away is NOT cleared. You have to manually issue /away to effect a /back. Adding /away to On Connect Commands has no effect.</p> <p>We either need for a) Smuxi to appropriately deal with this situation or b) a work-around in the form of being able to issue /away on connect.</p> <p>Thanks!</p> | | |

Smuxi sends/set unaway when you connect to a smuxi-server. If ZNC is not doing this for you, you will need to look at ZNC. Setting away when you quit Smuxi would be a bug in Smuxi actually, or ZNC is doing this for you.... In either case I would need a debug log of Smuxi to prove what is wrong.
