| Subject: | ObjectDisposedException printed in the console when quitting smuxi (under SingleApplicationInstance code) | | |
| Description: | I've recently git-pulled master branch, and after using the client a bit, I quitted the app, and found this in the terminal: | | |

Unhandled Exception:
System.ObjectDisposedException: The object was used after being disposed.

make: *** [run-gnome] Error 255

Granted, it's probably a mono bug, but maybe Smuxi should add a try-catch somewhere to achieve better cleanup?

## History

*- Category set to Common*

*- Complexity set to High*

This is annoying but harmless. Smuxi should not hide the issue, because the code has critical sections.
